

# HOW SHOULD I SET UP MY BLEED AND CROP MARKS?

Bleed must extend further than the cut line.

Please keep all text and anything you do not want cut off at least .125" away from the cut line.

Any art that you do wish to be trimmed off needs to extend (bleed) beyond the **cut line** at least .125".

Any art or image that stops exactly on the **cut line** and does not extend beyond it will lead to white edges on the printed piece when it is trimmed to size.

*If you have any questions on how to build your document with the bleed area, please do not hesitate to call or email us and we will be happy to help you.  
Thank you!*
